WAVE OF REVOLT ROLLING ON RUSSIA

Milukoff Says There is Little Hope of Staying Tide.

VERY PESSIMISTIC IN VIEWS

Revolutionary Elements Are Preaching That Parliamentism Is a Hoax and Are Trying to Make Revolution and Anarchy Inevitable.

St. Petersburg, May 24.—Professor Milukoff, the spokesman of the constitutional Democras, according to a thoughtful article published by him in the Rech Wednesday, is rather despondent over the prospect of staying the tide of revolution in the country. He bases his pessimism upon the conviction that the government will not yield a full constitutional regime, upon which, he says, it is still possible to calm the passions of the people. He regards Premier Goremyken and his cabinet as mere puppets doing the bidding of the powerful influences at court, and believes that Emperor Nicholas is destined to throw away the opportunity as Louis XVI did, of transferring the country to a peaceful, parliamentary regime. This the professor considers to be the government's last chance.

Revolutionary elements are preaching that parliamentism is a hoax and are trying to make revolution and anarchy inevitable. Nevertheless, the constitutional democrats are trying to save the empire on a constitutional basis, and if they fail and the revolution comes, it will not be on their shoulders.

The central committee of the constitutional democrats has not completed the drafts of the laws to be introduced in parliament, including universal suffrage, irrespective of sex, and equal rights for all citizens; laws guaranteeing immunity of the person and inviolability of domicile without due process of law, provding also the guarantee of habeas corpus and specifically excluding all exceptions.

While a part of the upper house favors a complete surrender to the demands of the lower house, the Trepoff cabal, which secretly favors a dissolution of parliament, is not strong enough for the moment, to urge such a course. The emperor continues well disposed, and is supported by many nobles at the court, and by many big landed proprietors throughout the entire country.

The provinsial papers are filled with advertisements offering estates for sale, inserted by property owners who despairing of saving their property are ready to accept what they can get and flee the country.

Authorize Favorable Report.

Washington, May 24.—The house committee on industrial arts and expositions Wednesday authorized a favorable report on a concurrent resolution, requesting the president to invite the governors of the states to participate in the Tampa exhibition to be held from January to May in 1907 to commemorate the beginning of work on the Panama canal. The resolution was amended so that if adopted it will in no way commit the government financially to the enterprise. The president is, however, requested to hold a naval review in Tampa Bay during the exhibition. The resolution was introduced by Representative Sparkman of Florida.

Taxes on Utility Concerns.

Washington, May 24.—All public service corporations in the District of Columbia will be taxed 12 per cent of their net earnings in addition to the 4 per cent on gross earnings paid under the present law if a bill ordered reported favorably by the senate committee on the District of Columbia becomes a law. These corporations are given the choice.

Report Made Public.

Albany, N. Y., May 24.—The state insurance department Tuesday made public its report on the examination of the Provident Savings Life Assurance Society of New York. It shows total admitted assets of $4,131,613, an unimpaired capital of $100,000, and unassigned funds of $62,758.

BOND PROTECTS THE PYTHIANS

McArthur's Reported Shortage Cannot Hurt the Secret Order.

Columbus, Ga., May 24.—Hon. William H. Brannon, retiring grand chancellor of the grand lodge of Georgia Knights of Pythias, has returned from the meeting of the Grand Lodge in Augusta.

When asked about the case of Grand Master of Exchequer W. A. McArthur, of Augusta, who was reported to be about $3,800 short in his accounts with the grand lodge, the retiring grand chancellor said that he did not think it proper to discuss incidents that occurred under the seal of the lodge. R. C. Norman, of Washington Ga., is the newly elected grand master of exchequer. Mr. Brannon said that if, when the retiring grand master of exchequer makes his accounting to his successor, of the funds in his hands, any shortage should be found to exist, the grand lodge would be fully protected, as Mr. McArthur is under bond.

He filed bond with Grand Chancellor Brannon at the proper time, and this bond, which is for $7,000 and in a perfectly responsible guaranty company, has been turned over by Mr. Brannon to his successor in office Grand Chancellor T. H. Nickerson of Athens.

Mercy Petition Mile in Length.

Boston, Mass., May 24.—A petition more than a mile long and bearing more than 115,000 names, was sent to Governor Guild Tuesday asking him to commute to life imprisonment the sentence of death imposed upon Chas. L. Tucker for the murder of Mabel Page, at Weston, in March, 1904. The signers include 30,860 men and 35,000 women. An express wagon was necessary to transport the petition to the state house. Governor Guild, it is understood, will not consider the memorial until next week, after Judges Sheldon and Sherman, of the superior court, have passed upon the new evidence, which Tucker's attorneys say they have discovered.

Mercy Shown to Culprits.

Augusta, Ga., May 24.—Two four young Atlanta and Macon boys who entered the store of Devenny, Hood & Co. last month and stole valuable merchandise therefrom, were the recipients of extreme leniency at the hands of Judge Henry C. Hammond in the criminal session of the superior court when he imposed upon each a sentence of six months on the chaingang or a fine of $50, but suspended execution pending good behavior and on the condition that they return immediately to their respective homes. The names of the boys are Charles Keown, Gus Blankenship, Theodore Halliburton and George Ellis, alias Charles Clowed.

Method of Incision Leaves No Scar.

New York, May 24.—A cable dispatch to a morning paper from London says that some of the hospitals here are employing for operations an unnamed surgeon who has perfected a method of incising the skin without leaving a visible scar. His success is mainly attributable to his skill and experience, but his method is based on the practice of cutting the skin slantwise instead of rightangles to the surface. He uses a hollow ground scalples made after his own designs. Some times massage forms part of the healing treatment.

Situation Growing Serious.

Nashville, May 24.—The situation in the dark tobacco section of Tennessee and Kentucky is growing serious. A dispatch from Hopkinsville, Ky., says the tobacco planted on the farm of L. L. Leavill, containing 450 square yards, was visited Tuesday night by unknown parties and completely destroyed by being dug up with hoes. Mr. Leavill is now a member of the Dark Tobacco Planters' Protective association and says threats have been made against his plant beds. Hundreds have been placed on the tracks of the plant bed destroyers.

Lynched for Robbing Boy.

Shreveport, La., May 24.—Tom Jarvis, a negro who had been at work for hooking up and robbing [illegible] Parma, a white boy of [illegible], was arrested in Bossier [illegible] of this city. The negro confessed his crime, was [illegible] and a mob from [illegible] of Bossier City, was [illegible] had a rope [illegible] been secured.

NEW RAILWAY FOR GEORGIA AND FLORIDA

Six Short Lines Have Been Combined.

KNOWN AS GEORGIA & FLORIDA

Total Mileage Represented Is 230 Miles—System to Extend from Augusta to Madison, Fla.—Expenditure of $5,000,000.

Baltimore, May 24.—The banking firm of Middendorf, Williams & Co. has announced that a syndicate organized by that firm and the International Trust company, of this city, and that of John D. Williams & Sons of Richmond, Va., has consummated the purchase of six short railroads in Georgia and Florida, having a total mileage of about 230 miles, which it is proposed to consolidate under the name of the Georgia and Florida railway. The roads purchased are:

Douglas, Augusta and Gulf railroad, Millen and Southwestern railroad, Augusta and Florida railroad, Nashville and Sparks railroad, Valdosta Southern railroad, Midvale, Swainsboro and Red Bluff.

Connecting links have been planned and when built the road will extend from Augusta, Ga., to Madison, Fla. The carrying out of the plan of the syndicate involve an expenditure of about $5,000,000.

Williams Gets Valdosta Road.

Valdosta, Ga., May 24.—It is announced here that the Valdosta Southern railroad from this city to Madison, Fla., has been sold to John Skelton Williams and his associates and that the line will be made a part of the through line when the Williams syndicate is building from Augusta to Valdosta.

A deal has been pending for the sale of the road for several weeks. E. L. Bemis, of Richmond, Cecil Gabbett and John Scott, prominently identified with the Williams syndicate, spent Tuesday in this city, and while these gentlemen, as well as Colonel J. M. Wilkinson, president of the Valdosta Southern, decline to discuss the matter, it may be authoritatively stated that the object of their visit was consummated in the deal which they made.

It is understood that the new owners will take charge of the road on June 1, and that John Skelton Williams will be president and Cecil Gabbett general manager. The proposed line, which is now being surveyed from here to Nashville, Ga., will be connected with the Valdosta Southern here, and with the lines which are being merged to the north of here, will make the through line to Augusta. Colonel J. M. Wilkinson, who built the Valdosta Southern, was the principal owner of the road. It is regarded as one of the best paying short lines in this section.

Will Take Issue of Bonds.

New York, May 24.—A cable dispatch to a morning newspaper from Paris says that the arrangement has been completed under which the bourse will take an issue of $50,000,000 Pennsylvania bonds. They will be issued in French currency and will run from 15 to 20 years. The bonds will be on a 4 per cent basis.

Switzer Seriously Ill.

Columbia, Mo., May 24.—W. F. Switzer, chief of the bureau of statistics during President Cleveland's administration, is seriously ill at his home here and physicians say he cannot recover. He is 67 years old.

Refuse to Take Ball Cartridges.

Kursk, Russia, May 24.—The soldiers of the Orlovsk regiment here who were to be dispatched into the country districts in anticipation of agrarian troubles, have refused to take ball cartridges with them.

Transferred to Pensacola.

New Orleans, May 24.—The [illegible] ordered to this city to Pensacola, it is announced, have been transferred to Philadelphia. He will not go to the new post however, as if his [illegible] day after [illegible]

WARRANT AGAINST MOTHER.

Son Claims Mother Made Threats Against His Life.

Columbus, Ga., May 24.—Mrs. Sabina V. Wiggins has just been arraigned before Justice J. M. Lennard as defendant in a novel case, the prosecutor being Charley Wiggins, her son, who had a peace warrant issued against his mother. The case was dismissed by the magistrate after thorough investigation.

Wiggins, who is an only child, married last October and says that his mother raised objection to her daughter-in-law and would not let the young couple live with her. The couple then made their home on the Alabama side of the Chattahoochee, in Girard.

Wiggins claimed that his mother had made such threats against him that his life was in danger. His mother is tall and strong and is probably more than a match for him physically. On the stand the young man swore that he had heard that his mother would separate the couple if she had to kill one or both of them. He testified that his mother had visited his home in Girard at unseemly hours of night and placed salt and straw on his steps and sidewalk in his way.

Mrs. Wiggins denied these statements in toto.

$1,000,000 Fire Loss at Seattle.

Seattle, May 24.—A special to the Post Intelligencer states that the entire business section of the town of Fairbanks, Alaska, was destroyed by fire which started in the Fairbanks [illegible] Tuesday afternoon. Details of the disaster are very meager, but it is said that the local supply [illegible] has been destroyed and great suffering [illegible]. Nothing was left standing in the section being [illegible] and [illegible] and [illegible] and

NEGRO MAN MET INSTANT DEATH

Isaac Montgomery Bumped Up Against Wrong Proposition.

MET HIS DEATH BY PISTOL

Demanded a Loan of $5, and When Refused Wanted to Take the Life of the Man Who Refused It—Result Was That Montgomery is Dead.

Isaac Montgomery, colored, was found dead near the public road, in the Bennington section Thursday morning.

Coroner D. G. Harvard, being notified, summoned a jury, which, after proper investigation of the facts, returned a verdict to the effect that the deceased came to his death by a gunshot wound at the hand of Benjamin Avant, and that the same was in self-defense, and justifiable.

The evidence produced was to the effect that Montgomery had been persecuting Avant for some time; that Montgomery went to the home of Avant on Wednesday night and demanded a loan of $5, which was refused. Montgomery abused and cursed Avant, threatening to take his life, and departed.

After Montgomery had gone Avant went to a neighbor's house, where he believed a friend, Reuben Turner, was sleeping, to tell Reuben his troubles. Instead of Reuben, Montgomery met him at the door, who came out with pistol in hand and continuing his abuse, threatening to kill him. Avant ran, but Montgomery pursued and shot at him, when he turned and fired to save his own life, as he himself had received a bullet wound in the left nipple. Avant, however, had turned once or twice and begged Montgomery not to shoot, as he was exhausted and could not run any more, but Montgomery insisted that he would kill him before he was done.

There were nearly a hundred witnesses, it is said, at the inquest, all of whom testified that Montgomery was a "bad man," and would not do to trust.

A SUCCESSFUL FARMER.

C. M. McKinney of Graham Harvested 2,300 Bushels of Potatoes.

Chas. M. McKinney, who owns and conducts an extensive farm near Graham, is nothing if he is not a success in his vocation. Mr. McKinney is one of the kind who conducts his affairs along practical lines. He studies farming with a view to making it a success, with the result the he produces in abundance almost every product of the farm, and his smokehouses and cribs are always well filled, with plenty to spare.

Mr. McKinney, who was a visitor to Gainesville Wednesday, stated that from a twelve-acre tract he harvested and housed 2,300 bushels of as fine sweet potatoes as he had ever seen. He has shipped two solid carloads to the Atlanta markets, which netted him from 65 to 75 cents per bushel, and has yet on hand about two carloads.

"I have a great deal of confidence in sweet potatoes as a money crop, if the right variety is set and the crop properly cultivated," remarked Mr. McKinney, who declares that he will increase his planting to twenty acres the coming season.

In the Circuit Court.

The business of the spring term of the circuit court has simmered down to a few civil cases and other court matters, and the session may possibly adjourn today.

The only case to be tried by jury yesterday was that of G. H. Scofield vs the Seaboard Air Line Railway, assumpsit. After hearing the evidence and argument in the case the jury, of which W. B. Taylor was foreman, returned a verdict for the plaintiff assessing damages at $10.

Court adjourned until 10 o'clock Friday morning.

Dissolution Notice.

The co-partnership heretofore existing between the undersigned under the firm name and style of the Gainesville Bottling Works, in the city of Gainesville has been dissolved by mutual consent. Mr. J. B. Davis retiring, and Mr. J. A. Brooks will continue the business at the same stand under the same firm name of the Gainesville Bottling Works and will assume all outstanding indebtedness and all claims due the old firm shall be paid to him.

BARGAINS IN MEDICINE.

A woman once wrote us that she was not going to buy Scott's Emulsion any more because it cost too much. Said she could get some other emulsion for less money. Penny wise and pound foolish. Scott's Emulsion costs more because it is worth more—costs more to make. We could make Scott's Emulsion cost less by using less oil. Could take less care in making it, too. If we did, however, Scott's Emulsion wouldn't be the standard preparation of cod liver oil as it is to-day.

THE CLAM'S NECK.

Purpose and Characteristics of This Organ of the Bivalve.

Persons who have seen soft shell clams as they lay in a pan in the kitchen preparatory to being cooked scarcely recognize them in their natural state. Many of us who have seen clams know that they have "necks," but are ignorant of the purpose and characteristics of this attachment. As they lie on the ground they are far from being close mouthed. In fact, they are seldom to be seen with the shell closed. From one end projects the "neck," which may be three times as long as the shell when fully extended. This fact, in case the "neck" is stretched out, makes one wonder how such a length can be contracted into such a small space and how much remains in the shell after the "neck" has been elongated. This is the astonishing characteristic of the soft shelled clam and the one that makes him unrecognizable to so many people. One of the clams, for instance, is three inches long. His "neck" when extended is possibly eight or nine inches long and as large around as a man's middle finger.

As every one knows, the clam when in its native haunts is to be found several inches below the surface of the sand. He has to be dug up when discovered by the little spurts of water which the clam beneath throws up when disturbed.

This "neck" connects the clam with his food supply in the water above. In the "neck" are parallel tubes. Through one tube the clam sucks in a quantity of water. From the water he absorbs whatever nourishment it may contain and then expels the water through the other tube.

One may wonder how the clam gets into the sand or mud. At the end opposite the "neck" may be seen an appendage resembling a turtle's tail in shape and called a foot. It is with this foot that he digs his way downward.—Detroit Free Press.

NO EXCUSE FOR CATARRH.

Worst Cases Quickly Cured by Breathine Hyomei—Guaranteed by J. W. McCollum & Co.

There is really not the slightest excuse for anyone having catarrh, now that Hyomei is so widely known and so easily obtained. The worst cases of catarrh are quickly cured, simply by breathing the remedy through the pocket inhaler that comes with every outfit.

The complete outfit, consisting of a neat pocket inhaler, a medicine dropper, and a bottle of Hyomei costs only one dollar, while extra bottles can be obtained for fifty cents, making Hyomei the most economical, as well as the most reliable method for curing catarrh.

J. W. McCollum & Co. positively guarantee a cure when Hyomei is used in accordance with directions, or they will refund the purchase price.

Extension Water Mains.

Superintendent Miller of the Gainesville Waterworks is busy with a force of hands extending the mains along West Liberty street to the University grounds, and it will be only a matter of a short while before residents along this thoroughfare can be supplied with city water. This will prove a great convenience and will be appreciated.

Fatally Burned by Kerosene.

Tampa, Fla., May 23.—While endeavoring to kindle a fire with kerosene, Mrs. W. W. Collins, wife of a furniture man of this city, received burns from which she later died.

VOLCANIC ACTIVITY.

A Theory to Explain the Source and Cause of Eruptions.

In a volume on volcanoes Professor C. Doelter undertakes to tell why volcanoes have eruptions. Melted rock such as is flung from Vesuvius requires a temperature of 1,900 degrees Fahrenheit, so that it becomes liquid only far down in the earth, perhaps sixty or a hundred miles. Below the outer crust of cooled and solidified rocks there must be a large zone of rock which still remains solid because its temperature is less than that of the melting point corresponding to the pressure under which it rests, and below that again there must be rock or magma in a state of fusion. It is to this magma that Professor Doelter looks for the primary source of all volcanic activity. At the same time the depth at which this primary reservoir of magma lies and the pressure under which it is confined are so great that a direct eruption from it is inconceivable, but when, by movements in the overlying crust or otherwise, a channel is opened the magma may rise to a depth where it is surrounded by rock at a lower temperature than the melting point. In these circumstances solidification begins.

From all volcanoes large quantities of steam, of carbonic acid and other gases are evolved, and the course of every lava stream is marked by clouds of steam evolved from the cooling lava. At one time—and the idea is still common—this steam was supposed to have been derived from sea water which had obtained access to the molten lava while still underground, but this explanation is now generally rejected, being impossible in some cases and inadequate in all, and the greater part of the steam and other emanations from a volcano are now regarded as directly derived from an original store in the interior of the earth. However this may be, it is certain that the magma from which volcanic lava is derived is not merely in a state of igneous fusion, but is combined with water and gases, which are given off as it solidifies and by their escape frequently form miniature volcanoes on the surface of lava streams.

If the solidification takes place underground the steam and gases are expelled, and, if there is no free escape, pressure may increase till it becomes great enough to overcome the resistance of the overlying rock and so lead to an eruption and the formation of a volcano, whose character will depend on the nature of the reservoir from which the eruption took place.

Stop Grumbling

If you suffer from rheumatism or pains, for Ballard's Snow Liniment will bring quick relief. It is a sure cure for sprains, rheumatism, contracted muscles and all pains—and within the reach of all. Price, 25c, 50c, $1. C. R. Smith, Tenaha, Tex., writes: "I have used Ballard's Snow Liniment in my family for years and have found it a fine remedy for all pains and aches. I recommend it for pains in the chest." Sold by W. M. Johnson.

Sea Water.

Sea water is a complicated mixture of a great variety of substances. Roughly speaking, it consists of 96½ per cent of fresh water plus 3½ per cent of mineral salts. Three-fourths of these salts are chloride of sodium, or common table salt, and the next largest constituent is chloride of magnesium. After these come sulphate of magnesium, sulphate of lime, sulphate of potash, bromide of magnesium and carbonate of lime. In addition to these substances sea water contains minute quantities of quite a variety of elements, including iodine, phosphorus and arsenic. It also contains some silver, copper, zinc, nickel, cobalt, iron and gold. There is said to be 2 cents' worth of gold in every pailful of sea water, but as yet nobody has found a way to extract it. Copper and zinc are found in some seaweeds, and certain species of coral in three-millionths silver.

A Thoughtful Answer.

"What's the first step toward the digestion of the food?" asked the teacher. Up went the hand of a black haired little fellow, who exclaimed with eagerness: "Bite it off! Bite it off!"

THE LAST NIGHT A GRAND SUCCESS

The High School Exercises Thursday Night Were Superb.

EVERY STUDENT DID WELL

The Program Was a Difficult One, but Was Well Rendered, and Greatly Enjoyed and Appreciated—Presentation of Medals.

The third and last evening's exercises of the closing of the University High School were held Thursday evening, the program being devoted at this time to the work of the High School department.

As has been the case on Tuesday and Wednesday evenings, the auditorium was crowded to its utmost capacity, even the windows and doors being occupied.

The program, which was a most interesting one, was carried out as follows:

Opening song, "Song of the Classes," by High School.

Declamations by Willie Shands, Pearl Prevatt, Sam Mixson, Ralph Thomas, Mary Baird, Ida Little and Nina Cellon.

Original orations, "Robert E. Lee," Larkin Carter; "Napoleon," Tom R. McBeath.

Vocal solo—Rosabel Pedrick.

Instrumental solos, duets and trios by Bessie Kelley, Leonora Vidal, Ernestine Fagan, Leo Baker, Ruth Doig, Marion Futch, Connie Daughtry, Mattie May Williams and others.

Violin selections—"Medley in F" and Flower Song—Tom and Omerea McBeath.

Scholarship medals were presented to Miss Nannie Smith in Freshman class and Tom R. McBeath in Sophmore for best work in Latin and Algebra. These medals were furnished by the Latin and Algebra teacher, Mr. Tom F. McBeath. The presentations were made by Superintendent J. L. Kelley in his usual eloquent and graceful manner, during which he took occasion to pay each student a just and deserving compliment.

The U. D. C. medal was awarded to Joe Shands for best essay on the life and character of Gen. Joseph E. Johnston.

The auditorium was beautifully decorated in the various colors of the classes, the Freshmen red and white, the Sophmore purple and gold, and the Juniors green and white.

In all, the commencement exercises for 1906 have been gratefully successful from every standpoint, notwithstanding the inclemency of the weather during the entire three days. The big auditorium has been crowded every night by friends and admirers of the school.

DEATH OF DR. RICHARDS.

One of Gainesville's Oldest and Most Respected Citizens Passes Away.

After an illness of several days from paralysis, which attacked him suddenly while he was inspecting his pecan grove at Archondo, Dr. Benjamin F. Richards died at his home on North Oak avenue Thursday afternoon about 4 o'clock. By request, The Sun withholds further than preliminary mention for this issue.

The funeral will occur from Holy Trinity Episcopal Church at 4 o'clock this afternoon, and the interment will be in Evergreen cemetery. Friends of the family are invited.

The pall-bearers furnished for publication are as follows: H. E. Taylor, W. M. Dale, Walter N. Benedict, E. D. Turner and Harold B. Arnold.

Friends of the family offer sympathy.

SERVICES POSTPONED.

Rain Prevented Funeral of Infant of Rev. and Mrs. Craighill.

A severe rainfall prevented the holding of the funeral services over the remains of the infant son of Rev. and Mrs. F. H. Craighill on Thursday morning, as had been announced, and the services were postponed until 2 o'clock this afternoon, when they will take place from Holy Trinity Church.

The following gentlemen are assigned and requested to act as pallbearers: W. W. Hampton, E. E. Cannon, M. Hyatt and C. R. Layton.

Attention, Elks.

All members of Gainesville Lodge No. 980, B. P. O. E. are requested to meet at the office of W. E. Dow at 1:45 o'clock this afternoon, in readiness to attend the funeral of the infant son of Bro. and Mrs. F. H. Craighill, which will be conducted at Holy Trinity Church at 2 p. m.

H. S. Cuppy, E. R.
A. M. Cushman, Sec.

Rev. F. H. Brown will conduct the service at 2 p. m. and Revs. Brown and Craighill will officiate at the funeral of Dr. Richards at 4 o'clock.

Mr. Bunch from South Florida.

J. F. Bunch of the Standard Fertilizer Company has returned from South Florida, where he spent several days in the interest of this firm. Mr. Bunch visited Lakeland and points on the Charlotte Harbor division of the Atlantic Coast Line. He states that the crops in that section never looked better, and prospects are for a good yield. The weather has been dry, however, which has caused the general dropping of oranges from the trees. Recent rains have remedied this condition. Large quantities of tomatoes are being shipped daily, and watermelons are beginning to move in carload lots. In all, the people of South Florida are energetic and prosperous, with the result that money is plentiful down there.

Alleged Whiskey Selling.

Deputy United States Marshal R. E. Richard of Lake Butler was in the city Thursday, being en route home from Cedar Key.

Mr. Richard arrested at Mayo, LaFayette county, a few days ago Wm. Strawter and Julia Goodman upon a charge of selling liquor without government license. They were taken to Cedar Key and arraigned before Commissioner Cubberly. The man was discharged, but the woman was released under bond of $100.

Mr. Richard states that fishing is fine at the Keys now. He went out on Wednesday afternoon and in less than three hours caught with hook and line a half-barrel of fish of the choicest varieties.

A Business Change.

J. R. Emerson, proprietor of the Cash Grocery, who has been conducting a business in this city for the past eighteen months or two years has disposed of his stock to A. B. Oliver, who assumed charge Friday.

Friends of Mr. Emerson hope that the fact of his selling out does not mean that he proposes to leave the city. He and his estimable family have made many friends here who would regret exceedingly to see them leave.

Best for Women and Children.

On account of its mild action and pleasant taste Orino Laxative Fruit Syrup is especially recommended for women and children. It does not nauseate or gripe like pills and ordinary cathartics. Orino Laxative Fruit Syrup aids digestion and stimulates the liver and bowels without irritating them. Remember the name Orino and refuse substitutes. J. W. McCollum & Co.

Perfect Sleep
Women Who Are Free From Female Ills Sleep Soundly
Points to the Cause
How many women are troubled with insomnia! How few, alas, habitually sleep the night through and rise refreshed.
If you can't sleep it is because your nerves will not let your body rest. Women's nervous troubles come from female diseases. Their delicate organism is a network of intricate nerves. No woman can suffer from female irregularities without eventually ruining her nervous system. Get rid of female disease and the perfect sleep of childhood will return.
Lydia E. Pinkham's Vegetable Compound
cures all female troubles and restores nerve equilibrium and brings sound, restful, healthful, natural sleep. Thus does this wonderful remedy operate to bring health to suffering women.
Wakefulness and Nervousness Cured
Dear Mrs. Pinkham:—Last spring I lost my appetite, had headaches, and bearing down pains with cramps so that I was in perfect misery. I became wakeful and extremely nervous.
I decided to try Lydia E. Pinkham's Vegetable Compound, and am pleased to state that I derived immediate benefit and soon enjoyed permanent relief.
Within eight weeks I was restored to normal health and felt refreshed and strengthened as though I had enjoyed a lengthy vacation.
Since that time I have recommended your Compound to a number of my lady friends suffering with female irregularities, and those who have used it report great benefit from its use.
Mrs. E. E. Van Dinter.

Vice-President Social Economic Club.
Lydia E. Pinkham's Vegetable Compound has cured more women of female diseases than any other medicine in the world. Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham, advises sick women free. She will write you a personal letter if you tell her about your case.

A HOT TIME AT FREEDOM PICNIC

A Day of Frolic Was Turned Into a Turmoil of Disorder.

ONE MAN WAS PAINFULLY CUT

In Attempting to Defend Himself Against Injury by Ugly Knife, He Was Lacerated in Both Hands—Baseball Bats as Weapons.

There was a negro barbecue and picnic at Freedom, a settlement near Montezuma, two or three days recently which ended with the usual result—one man cut and two with broken heads caused by coming into contact with a baseball bat.

During the afternoon Dan Davis and Legacy Brown, it is alleged got into an altercation over a trivial matter when it is said that Legacy drew his knife, an ugly-looking Barlow, and threatened to "fix" Dan so that his friends and kin folks would be walking slow behind him the next day. He made a lunge at Brown, striking over the head with a baseball bat. This did not phaze Brown, however, who came on with the madness of an angry bull in a Spanish ring. The men grappled, and in the endeavor to wrench the knife away from his antagonist, Davis' hands were terribly lacerated.

About this time Sad Gaskins "butted in," he declared as a peace-maker. One of the men then picked up the bat evidently not desiring to be interfered with and cracked Gaskins over the head. Gaskins returned the compliment by applying the same to but in the excitement and confusion laid out the fellow who had received the knife wounds. There was general disorder for a while, but finally everything was settled down, but not until after the meeting had broken up in disorder.

The men were arrested and arraigned in justice court at LaCrosse Wednesday. The case was not pressed however upon the payment of all costs by the defendants.

It is said that several were more or less injured in the general mix-up, but no authentic information on this direction can be learned.

Attorney J. M. Rivers appeared for the prosecution, while Attorney E. O. Baxter represented Brown and Davis.

NATURE SPARES

The Stricken Rose From Grief.

What a fortunate provision of nature it is that deprives the rose of its suffering for how poignant would be grief to discover the weight of its blooming glory to be a canker fed at the heart and that its beauty and fragrance were destined for the worm. Nature, it is said, spares the suffering she is a welcome provision of providence. Nature spares those who pass out of life the pain of going by falling into oblivion and gives to the rose a gloom over the fate of thousands of young women but thanks to the discoveries of scientists the fate of the rose of late destruction is now known to be a germ or parasite that hungers into the hair follicles. Newbro's Herpicide absolutely destroys this germ thus permitting the hair to grow as nature intended. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co. Detroit, Mich.

THE DRAINAGE QUESTION.

Discussion of the proposition to drain the Everglades promises to furnish food for thought during the summer months. Governor Broward will canvass every county in the State and advocate the adoption of the constitutional amendment creating a Board of Drainage Commissioners, and it is probable that able speakers will appear before the people in opposition to the measure. It is a matter that should receive very careful consideration at the hands of the voters, for there is great difference of opinion regarding the practicability of draining this vast area of overflowed land, as well as the justice of the drainage tax. The State has already spent considerable money preparing for the work, but it would be better to lose that already spent than to squander millions more.

Referring to this matter The Live Oak Democrat says: "Hon. John S. Beard of Pensacola, who will be one of the strong men of the next State Senate, in a recent speech on the drainage issue, said that the lowest estimate for the cost of draining the Everglades will be $3,000,000. The people who own the land in the drainage district are to pay this tax, as they are the ones 'benefited,' and if Mr. Beard's figures are right the assessment will be little less than confiscatory. And yet the whole people of Florida are asked to vote this heavy burden upon the comparatively few who own the lands in the drainage district. Is it not a proposition that appeals strongly to a fair-minded man—except in its negation?"

The Live Oak Daily Democrat is one of the best papers in the State. It is printed in up-to-date style and edited with exceptional ability.

B. Harry Pittman has bought The Quincy Herald and Era and assumed management thereof. The Sun wishes the new editor much success.

The "signs of the times" indicate the nomination and election of Wm J. Bryan of Nebraska as president in 1908. The Ohio Democratic State Convention unanimously endorsed him.

Of the 45,000 immigrants a week who are coming into this country, at least half will make haste to learn the language so they may tell us how much better things are in the countries they left.

The future may show that The Jacksonville Metropolis editor does not know as much about how certain members of the next Senate will vote upon some measures to come before that body as he pretends to know.

After nearly six years of reputed trust busting, can anyone point to a trust that the Administration has made away with or that has ceased to plunder the people? There have been lots of pyrotechnics but no dancing.

The success of Hon. Ed L. Wartman as a candidate for representative from Marion county is gratifying to the people of Gainesville. He is a staunch supporter of the Buckman bill and will oppose the crossing of a "t" or dotting of an "i" in the measure. He believes the University was properly located at Gainesville and will advocate its maintenance upon a liberal scale.

THE NEXT SENATE.

The next State Senate will be composed of the following persons, the only ones to be elected in November being those from the even numbered districts, except the 33d, where an election will be held to fill the vacancy caused by the death of Senator Lee:

First district—Thomas F. West of Milton.

Second district—John S. Beard of Pensacola.

Third district—John Neel of Westville.

Fourth district—Theop West of Marianna.

Fifth district—A. J. Alford of Carrabelle.

Sixth district—James E. Broome of Quincy.

Seventh district—Park M. Trammell of Lakeland.

Eight district—John W. Henderson of Tallahassee.

Ninth district—W. K. Jackson of Inverness.

Tenth district—Charles L. Leggett of Madison.

Eleventh district—James E. Crane of Tampa.

Twelfth district—A. J. Winburn of Call, LaFayette county.

Thirteenth district—F. M. Hudson of Tibbals.

Fourteenth district—F. P. Vone of Lake City.

Fifteenth district—J. B. Crews of Lake Butler.

Sixteenth district—Thomas S. Davis of Fernandina.

Seventeenth district—J. R. Newlan of Live Oak.

Eighteenth district—H. H. Buckman of Jacksonville.

Nineteenth district—Louis C. Massey of Orlando.

Twentieth district—D. H. Baker of Sumterville.

Twenty-first district—N. R. Carter of Levyville.

Twenty-second district—W. M. Girardeau of Monticello.

Twenty-third district—I. N. Withers of Leesburg.

Twenty-fourth district—W. Hunt Harris of Key West.

Twenty-fifth district—S. W. Clark of Blountstown.

Twenty-sixth district—E. S. Crill of Palatka.

Twenty-seventh district—Joseph H. Humphries of Bradentown.

Twenty-eighth district—Frank W. Sams of New Smyrna.

Twenty-ninth district—E. E. Canova of Sanderson.

Thirtieth district—Frank Adams of Jasper.

Thirty-first district—Lewis W. Zim of St. Augustine.

Thirty-second district—H. H. McCreary of Gainesville.

Of the ones to be elected, Davis, Harris, Crill, Sams, Adams and McCreary will be their own successors. Broome and Baker have served in the Senate before, while Buckman and Girardeau were members of the House in 1905. Thus it will be seen that the next Senate will be composed of 22 members experienced in legislation, so far as past service is concerned.

In many counties the recent State census was a fake, the enumerators simply copying the figures of the United States census taken five years previously, while in other counties no returns were made. The report from Alachua county, however, received favorable comment from Commissioner McLin, which is gratifying to the friends of the enumerator, Capt. T. J. McRae.

To a man who has the right kind of a heart there's just one little unpleasant thing about a political victory—the thought of the other fellow's defeat and disappointment.—Gainesville Sun.

Now that's a fine sentiment, Bro. McCreary, and it does credit to both your head and heart. We are more glad than ever that you won your election.—Live Oak Democrat.

The "Short Talks" editor of The Times-Union says: "Not all the newspaper men who were candidates for the Legislature were nominated. The vote by which Hon. H. H. McCreary was chosen to be sent back to the Senate from Alachua county is a source of gratification to the editorial fraternity of the State. His past record shows that the interests of his county will be well looked after, those of the State properly served and that the press of Florida will have a worthy representative in the Senate. The grace with which Editor Bittinger accepts defeat in Marion is pleasing to witness. Editors McKenzie and Russell in Putnam, and Matthews in Bradford, have been successful and The Times-Union extends congratulations to them and to the State. The man who can make a newspaper bright and interesting can hardly fail to be of great service to his constituents in the Legislature also."

Dr. L. W. Weedon of Tampa was in Jacksonville Wednesday and held a conference with Dr. F. D. Miller relative to organizing a branch of the State Sanitary League in Jacksonville. Dr. Weedon is president of the State league, which was organized in Tampa recently and, is anxious for Jacksonville to become a member of the league, the object of which is to have every city and town in Florida adopt a uniform system of sanitation. Not merely to clean up the town, as the term sanitation is generally accepted, but to inaugurate a systematic crusade for the extermination of mosquitoes.

The Marine Hospital Service has rated Pensacola in the service as a third-class station and has opened a bureau there with Dr. S. R. Mallory Kennedy as acting assistant surgeon. Some years ago the port was rated as third-class, but for some reason it was lowered and the service discontinued, except for the examination of aliens, which was done by Dr. Kennedy. Recently steps were taken to raise the station from fourth-class, and this has succeeded. Dr. Kennedy will assume charge of his duties at once and will have charge of all service patients, issue hospital permits and relief certificates, keep records and conduct all correspondence. The raise in the rating of the station is of much benefit to the port.

SKIN ERUPTIONS FOR 35 YEARS

Suffered Severely With Eczema All Over Body—Examined 15 Times by Government Board Who Said There Was No Cure—An Old Soldier Completely Cured.

A THOUSAND THANKS TO CUTICURA REMEDIES

"For over thirty-five years I was a severe sufferer from eczema. The eruption was not confined to any one place. It was all over my body, limbs, and even on my head. I am sixty years old and an old soldier, and have been examined by the Government Board over fifteen times, and they said there was no cure for me. I have taken all kinds of medicine and have spent large sums of money for doctors, without avail. A short time ago I decided to try the Cuticura Remedies, and after using two cakes of Cuticura Soap, two boxes of Cuticura Ointment, and two bottles of Cuticura Resolvent, two treatments in all, I am now well and completely cured. A thousand thanks to Cuticura. I cannot speak too highly of the Cuticura Remedies. John T. Roach, Richmondale, Ross Co., Ohio, July 17, 1905."

That Cuticura Soap is the best baby soap in the world for cleansing and purifying the skin, and that Cuticura Ointment is of priceless value for soothing and healing itching, torturing, and disfiguring eruptions. A single application of Cuticura Ointment, preceded by a warm bath with Cuticura Soap, gives instant relief, and refreshing sleep for skin-tortured babies, and rest for tired mothers. Bathe the affected parts with hot water and Cuticura Soap, to cleanse the surface of crusts and scales and soften the thickened cuticle; dry without hard rubbing, and apply Cuticura Ointment freely, to allay itching and inflammation, and soothe and heal.

Train Grinds Men and Auto.

Westbay, L. I., May 24.—While running at a rate of 40 miles an hour, a big touring automobile belonging to P. F. Collier, dashed into an eastbound express train at the depot crossing here Tuesday night. The two occupants of the machine, George Bishop, the chauffeur, and Frederick-Whitehead a valet in the Collier family, were instantly killed, and the machine wrecked. The men were on their way to the Meadow Brook Club.

Postal Congress in Session.

Rome, May 24.—The International postal congress at its session Wednesday approved the British proposition to raise the weight of letters to one ounce. One of the delegates proposed Melbourne, Australia, as the seat of the next postal congress. It received 11 votes. A French delegate proposed Madrid as the site of the next congress, and that city was selected.

One Killed; Seventy Injured.

LaFayette, Ind., May 24.—One man was killed and seventy-odd were injured in a collision on the Battle Ground and LaFayette Electric road Wednesday. Both cars were crowded with Grand Army of the Republic veterans. The collision occurred at a switch. One car was coming south to the city from Battle Ground with veterans, and the other was outward bound, carrying old soldiers to the battlefield. Charles Roudebusch, motorman of the south bound car, was killed. Both cars were demolished. A dozen or more doctors were summoned and the injured were brought to the city in special cars and taken to St. Elizabeth's hospital.

Kings Daughter and Sons in Session

Wheeling, W. Va., May 24.—The Fourth street Methodist Episcopal church of this city, was filled Wednesday when the first business session of the international convention of the Kings Daughters and Sons was called to order. Following the address of welcome, a flattering financial report was presented by the secretary Mrs. Robert J. Reed. The rest of the session was taken up with consideration of the report of the chairman of the conference, Mrs. J. William Jefferson, of Louisville, Ky., and an address on "Spiritual Development," by Mrs. R. L. McLaurin, of Vicksburg Miss.

HE BLOCKED WABASH SYSTEM.

Crazed Telegraph Operator Caused Confusion by Message.

Chicago, May 24.—A dispatch to a morning paper from Huntington, Ind., says:

A crazed telegraph operator blocked the entire Wabash system Tuesday for half an hour by sending out unintelligible messages to the different train dispatchers. Much confusion followed, and all trains had to be stopped in order to prevent accidents.

When Chief Operator Beauchamp went to his luncheon he left Everett Kellam in charge of the board. Having recently been overcome by heat, Kellam, unknown to his employers, was in an irresponsible condition and as soon as the room was vacated he decided that the past methods of train dispatching were all wrong. Smitten with an idea that it would be more interesting to run a passenger train on freight schedules and vice versa, with a head-on collision or two in every division to give the wrecking crews practice, he started immediately to put it into execution.

"Eat, Drink and Be Merry."

Jersey City, N. J., May 24.—"Eat, drink and be merry at my expense," was the request of Charles Heller, who died Saturday, to his comrades of George H. Thomas Post, Grand Army of the Republic. In compliance with his desire, on their return from Heller's burial Tuesday, the 45 survivors of the post, marched to the hall, where the feast, paid for by their comrade, awaited. Heller was a member of the Forty-fourth New York infantry in the civil war, and later became a successful builder. The members of the post marched in the funeral cortege from the home of their dead comrade to Flower Hill cemetery, where the burial took place. They journeyed back with the band by trolley cars to the hall, and ate, drank, sang and eulogized their dead comrade.

Postmaster Robbed.

G. W. Fouts, postmaster at Riverton, Ia., nearly lost his life and was robbed of all comfort, according to his letter, which says: "For 20 years I had chronic liver complaint, which led to such a severe case of jaundice that even my finger nails turned yellow; when my doctor prescribed Electric Bitters, which cured me and have kept me well for eleven years." Sure cure for biliousness, neuralgia, weakness and all stomach, liver, kidney and bladder derangements. A wonderful tonic. At all drug stores. 50 cents.

IN THE NITRATE COUNTRY.

Industry of the Barren, Dusty Deserts of South America.

In his "Commercial Traveler In South America" Frank Wiborg writes: "We stopped at a number of the nitrate towns—Pisagua, Iquique, Autofagasta—and I visited some of the mills, or officinas, in order to see something of the industry. Deposits of the crude nitrate of soda, called here 'caliche,' are found in the pampa, or rolling plateau, beyond the first range of foothills. In some places this plateau is but ten miles from the coast, in others as far as fifty miles. The pampa is an utterly barren desert. On the surface there is nothing to tempt the heart of man, but a few feet down lies the nitrate stratum. This presents much the appearance of rock salt and varies in color, according to the purity of the deposit, from a whitish tint to a dark gray. The upper earth is blown away with dynamite, and then the caliche is dug out with pick and shovel, loaded on iron carts and carried up to the mills.

"Here the caliche is first broken into small pieces by heavy crushers and then put into large boiling vats. Inside these vats are coils of steam pipes, by means of which the temperature can be regulated accurately. Sea water is poured in, and the caliche is boiled for a certain time. The liquid solution that results is drawn off into settling vats, which are exposed to the open air and the sun. Evaporation is rapid, and the pure nitrate of soda soon begins crystallizing and settling to the bottom. After this has gone on for some time the remaining liquid is drawn off and the crust of nitrate is scraped from the sides and bottom of the vat and thoroughly dried in the sun. Then it is graded according to quality and packed for shipment in 100 pound sacks.

"Most of the nitrate exported is used as a fertilizer, but a part goes to the manufacture of powder and high explosives. The nitrate towns are even barer and drier and less inviting than most of the other bare, dry towns of the coast. To some of them fresh water is brought in pipes from a distance of more than 100 miles. Before the day of these pipes it used to be sold in the streets by the gallon. That water even now, though not scarce, yet is not plentiful, is perhaps some excuse for the awful dust that blows everywhere."

THE DEVIL'S CODE.

Legend of a Monk, Satan and a Quick Night's Work.

Stockholm's public library contains a wonderful work which is called "The Devil's Code" and which, in addition to its extraordinary name, is said to be the biggest manuscript in the world. Every letter is most beautifully drawn, and the magnitude of the work is so great that it seems impossible for any single monk to have done it.

The story of the origin of the manuscript, however, not only gives it as the work of one man, but also states it to be the work of a single night. The story runs as follows:

"A poor monk had been condemned to death, but was told mockingly by his judges that if he was able to copy the whole 'Code' between darkness and dawn he would be saved. Relying upon the impossibility of the task, those who sentenced him furnished him with the original copy of the 'Code,' with pen, ink and parchment, and left him.

"Death must have been as little liked in the middle ages as it is now, for the monk, forgetting the hopelessness of his task, commenced it. Before long, however, he saw that he could not save his own life by such weak exertions, and, fearing a cruel and horrible death, he invoked the aid of the prince of darkness, promising to surrender his soul if he were assisted in the task.

"The devil kindly obliged by appearing on the spot, accepted the contract and sat down to the work, and next morning 'The Devil's Code' was finished, the monk being found dead. The copying clerk from the infernal regions presumably fled away with the poor man's soul as soon as the wicked compact was finished." — Pearson's Weekly.

Failure.

"Oh, George, I don't think that new safety razor of yours amounts to anything at all."

"Why not, dear?"

"Because I tried to use it today, and I couldn't do anything with it."

"What were you trying to do with it?"

"I was only trying to sharpen a pencil, and it wouldn't cut a bit."—Milwaukee Sentinel.

His Expectation.

"I suppose," said his friend, "that when the investigation takes place you will be represented by counsel."

"Yes," said the statesman, "and I suppose I'll be misrepresented by the opposing counsel."

A Good Prescription.

"Doctor, I wish you'd prescribe for my complexion."

"Certainly, madam," returned the doctor, and he wrote "Let it alone."

To the honest mind the best petition for the gift of a place are the advantages it has for doing good.—Addison.

READ THIS.

Lexington, Tenn., June 4, 1901.

This is to certify that I have used the Texas Wonder, Hall's Great Discovery, for kidney trouble and have been very greatly benefited and I can cheerfully recommend it to the public.

J. O. Conner, Ex-Sheriff.

A TEXAS WONDER.

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women, regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of $1. One small bottle is two months' treatment and seldom fails to perfect a cure. Dr. Ernest W. Hall, sole manufacturer, P. O. box 529, St. Louis, Mo. Send for testimonials. Sold by J. W. McCollum & Co.

Maccabees Will Organize.

The Modern Order of Maccabees, a tent of which order has been organized here with a membership of about twenty-five, will be instituted in the P. O. S. of A. hall, East Union street, over the store of J. Manasse, this evening.

A. C. Hamrick, who will institute the lodge, requests every person who signed the charter list and have been examined to report promptly at the hall.

FIRST CRATE CANTALOUPES.

They Were Shipped from Irvine, Marion County, Last Friday.

The first crate of cantaloupes for the season from the Irvine section were shipped last Friday, being consigned to New York. The fruit was exceptionally fine and realized handsome returns.

Indications are that the cantaloupe field in that section will be very prolific, and the fruit promises to be of extra fancy quality as a rule.

The crop will also be heavy in the Gainesville section, and it is expected that the movement will begin in earnest in a few days.
